Commercial Warranty

Frame and Welds 10 years
Parts 1 year
Upholstery 90 days

ABOUT THE XFIB

The foundation of any bench and rack line is the flat-incline bench. The second generation XFIB with its bullet proof design, rises to the occasion. Featuring one-handed back pad adjustments of 0°, 15°, 30°, 45°, 60° and 75°, two seat pad positions, and an ergonomic handle for mobility, the bench couldn't be any more intuitive to use. The well thought-out design features urethane foot guards for prolonged paint protection, non-skid rubber footpads on all floor contact points and a tapered seat pad to prevent dumbbell interference when performing arm curl exercises. Static tested with loads exceeding 9000 lbs, the bench will hold up in any environment and its efficient design leads to trouble free operation and maintenance.

ONE-HANDED ADJUSTMENT

Flat Position
(Flat seat)

30° Incline
(Decline seat)

75° Incline
(Decline seat)
